(b) A student shall not be subjected to an emergency safety intervention if the student is known to have a medical condition that could put the student in mental or physical danger as a result of the emergency safety intervention. (d) All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in cases of emergency, such as fire or severe weather.

(e) A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, and shall be well-ventilated and sufficiently lighted.

(f) The following types of restraint shall be prohibited:

(1) Prone, or face-down, physical restraint; supine, or face-up physical restraint; physical restraint that obstructs the airway of a student; or any physical restraint that impacts a student's primary mode of communication;

(g) Each local board shall develop and implement written policies to govern the use of emergency safety interventions in schools. At a minimum, written district policies shall conform to the standards, definitions and requirements of this act.

Such written policies shall include that:

(B) a procedure for complaint investigation;

(C) a procedure to implement a dispute-resolution final decision. The local board's decision shall be in writing and shall include findings of fact and any corrective action required by the school if the local board deems such action necessary. The local board's final decision shall be mailed to the parent and the department within 30 days of the local board's receipt of the complaint; and

(D) a procedure setting out the parent's right to request an administrative review by the state board, including information as to the deadline by which the parent must submit the request to the state board;

(3) a system for the collection and maintenance of documentation for each use of an emergency safety intervention as set forth in K.S.A. 2015 Supp. 72-89d04, and amendments thereto;

A school shall not be required to provide written documentation to a parent, as set forth in subsection (a)(1) regarding law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

(2) the type of intervention;

(3) the length of time the intervention was used;

(4) the school personnel who participated in or supervised the intervention;
(5) the events leading up to the incident;
(6) the student behaviors that necessitated the emergency safety intervention;
(7) the steps taken to transition the student back into the educational setting;
(8) space or an additional form for parents to provide feedback or comments to the school regarding the incident;
(9) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future use of emergency safety interventions;
and

(10) email and phone information for the parent to contact the school to schedule the emergency safety intervention meeting. Schools may group incidents together when documenting the items in paragraphs (b)(5) through (7) if the triggering issue necessitating the emergency safety interventions is the same.

(c) In addition to the documentation required by subsection (b), the school shall provide the parent the following information:

(1) After the first incident in which an emergency safety intervention is used with a student during the school year, the school shall provide the following information in printed form to the parent or, upon the parent's written request, by email:

(A) A copy of the standards of when emergency safety interventions can be used;

(B) a flyer on the parent's rights;

(C) information on the parent's right to file a complaint through the local dispute resolution process and the complaint process of the state board of education; and

(D) information that will assist the parent in navigating the complaint process, including contact information for the parent training and information center and protection and advocacy system.

(2) After subsequent incidents in which an emergency safety intervention is used with a student during the school year, the school shall provide a full and direct web site address containing the information in paragraph (c)(1).

(d) After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request the meeting verbally, in writing or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the date on which the parent sent the request. The focus of any meeting convened under this subsection shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

(1) For a student who has an individualized education program or a section 504 plan, the student's individualized education program team or section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral analysis, develop a behavior intervention plan, or amend either if already in existence.

(2) For a student with a section 504 plan, the student's section 504 plan team shall discuss and consider the need for an evaluation under the special education for exceptional children act, K.S.A. 72-961 et seq., and amendments thereto.

(3) For a student who has an individualized education program and is placed in a private school by a parent, a meeting called under this subsection shall include the parent and the designee of the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate the meeting.

(4) For a student who does not have an individualized education program or section 504 plan, the parent and school shall discuss the incident and consider the appropriateness of a referral for an evaluation under the special education for exceptional children act, K.S.A. 72-961 et seq. and amendments thereto, the need for a functional behavioral analysis, or the need for a behavior intervention plan. Each meeting called pursuant to this subsection shall include the student's parent, a school administrator for the school where the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for the meeting.

(5) The parent shall determine whether the student shall be invited to any meeting called pursuant to this subsection.

(6) The time for calling a meeting pursuant to this subsection shall be extended beyond the 10-school-day limit if the parent of the student is unable to attend within that time period.

(7) Nothing in this subsection shall be construed to prohibit the development and implementation of a functional behavioral analysis or a behavior intervention plan for any student if the student could benefit from such measures.

(e) If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint or mechanical restraint on a student on school grounds or during a school-sponsored activity, the school shall notify the parent on the same day the school becomes aware of the use, using the parent's preferred method of contact as described in K.A.R. 91-42-4(a). A school shall not be required to provide written documentation to a parent, as set forth in subsection (b) or (c) regarding law enforcement use of an emergency safety intervention, or report to the department law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

(f) If a parent believes that emergency safety interventions have been used in violation of this article or policies of the school district, then within 30 days from being informed of the use of emergency safety intervention, the parent may file a complaint through the local dispute resolution process. Any parent may request an administrative review by the state board within 30 days from the date the final decision was issued pursuant to the local dispute resolution process. (Authorized by and implementing Article 6, Section 2(a) of the Kansas Constitution; effective, T-91-2-17-16, Feb. 17, 2016; effective June 10, 2016; amended July 7, 2017.)

K.A.R. 91-42-5. Administrative review. (a) Any parent who filed a written complaint with a local board regarding the use of emergency safety intervention may request an administrative review by the state board of the local board's final decision.

(b) Each parent seeking administrative review shall provide the following information in the request:

(1) The name of the student and the student's contact information;

(2) the name and contact information, to the extent known, for all involved parties, including teachers, aides, administrators, and district staff;

(3) a detailed statement of the basis for seeking administrative review, with all supporting facts and documentation. The documentation shall include a copy of the complaint filed with the local board and shall include the local board's final decision, if issued. The request shall be legibly written or typed and shall be signed by the parent. Relevant written instruments or documents in the possession of the parent shall be attached as exhibits or, if unavailable, referenced in the request for administrative review; and

(4) written consent to disclose any personally identifiable information from the student's education records necessary to conduct an investigation pursuant to this regulation.

(c)(1) Each request for administrative review shall be filed with the commissioner within 30 days from the date a final decision is issued pursuant to the local dispute resolution process or, if a final decision is not issued, within 60 days from the date a written complaint was filed with the local board.

(2) The hearing officer shall forward a copy of the request for administrative review to the clerk of the local board from whom the administrative review is sought.

June 2017 Page 12

(d) Upon receipt of each request for administrative review, the hearing officer shall consider the local board's final decision and may initiate its own investigation of the complaint. Any investigation may include the following:

(1) A discussion with the parent, during which additional information may be gathered and specific allegations identified, verified, and recorded;

(2) contact with the local board or other district staff against which the request for administrative review is filed to allow the local board to respond to the request with facts and information supporting the local board's final decision; and

(3) an on-site investigation by department officers or employees.

(e) If the hearing officer receives information that the hearing officer determines was not previously made available to both parties during the local board dispute resolution process, the hearing officer may remand the issue back to the local board. The local board then has 30 days to issue a written amended final decision.

Upon remand, the hearing officer's case will be closed. All rights to and responsibilities of an administrative review shall begin again when the local board's amended final decision is issued or upon 30 days from when the hearing officer's remand is issued, whichever occurs first.

(f) Within 60 days of the commissioner's receipt of the request for administrative review, the hearing officer shall inform the parent, the school's head administrator, the district superintendent, the local board clerk, and the state board in writing of the results of the administrative review. This time frame may be extended for good cause upon approval of the commissioner.

(g) The results of the administrative review shall contain findings of fact, conclusions of law, and, if needed, suggested corrective action. The hearing officer shall determine whether the district is in violation of this article based solely on the information obtained by the hearing officer during the course of the investigation and the administrative review process. This determination shall include one of the following:

(1) The local board appropriately resolved the complaint pursuant to its dispute resolution process.

(2) The local board should reevaluate the complaint pursuant to its dispute resolution process with suggested findings of fact.

(3) The hearing officer's suggested corrective action is necessary to ensure that local board policies meet the requirements of law.

(h) Nothing in this regulation shall require exhaustion of remedies under this regulation before using procedures or seeking remedies that are otherwise available. (Authorized by and implementing Article 6, Section 2(a) of the Kansas Constitution; effective, T-91-2-17-16, Feb. 17, 2016; effective, June 10, 2016.)

K.A.R. 91-42-6. Exemptions. (a) As used in this regulation, each of the following terms shall have the meaning specified in this subsection:

Standards for the use of Emergency Safety Interventions

Emergency safety interventions law sets forth standards for the use of restraint and seclusion to ensure that all Kansas students and staff have a safe learning environment. The standards found in the emergency safety intervention statutes and regulations are required to be followed in all Kansas public school districts and accredited private schools.

An emergency safety intervention is the use of seclusion or physical restraint. The use of an emergency safety intervention shall **cease as soon as the immediate danger of physical harm and violent action ceases to exist.**

Before using an emergency safety intervention, a school employee witnessing the student's behavior must have determined that **less restrictive alternatives** to emergency safety interventions, such as positive behavior interventions support, were inappropriate or ineffective under the circumstances.

An emergency safety intervention shall be used **only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm.** Violent action that is destructive of property may necessitate the use of an emergency safety intervention if there is a reasonable and immediate danger of physical harm. An emergency safety intervention may not be used for purposes of discipline, punishment, or for the convenience of a school employee.

Physical restraint means bodily force used to substantially limit a student's movement.

Physical restraint is **NOT**:

- Consensual, solicited or unintentional contact and contact to provide comfort, assistance or instruction;
- physical escort;
- prescribed treatments for a student's medical or psychiatric condition by a person appropriately licensed to issue these treatments;
- protective or stabilizing devices either ordered by an appropriately licensed professional or required by law;
- any device used by a law enforcement officer in carrying out law enforcement duties; and
- seatbelts and any other safety equipment when used to secure students during transportation.

Prohibited types of restraints:

- **Prone**, or face-down, physical restraint;
- **supine**, or face-up, physical restraint;
- any physical restraint that **obstructs the airway** of a student;
- any physical restraint that **impacts a student's primary mode of communication**;
- **chemical** restraint ("chemical restraint" means the use of medication to control a student's violent physical behavior or restrict a student's freedom of movement.); and
- **mechanical** restraint ("mechanical restraint" means any device or object used to limit a student's movement).

Seclusion means placement of a student in a location where:

- The student is placed in an **enclosed area** by school personnel;
- the student is **purposefully isolated** from adults and peers; and
- the student is **prevented from leaving**, or the student reasonably believes that such student will be prevented from leaving, the enclosed area.

An emergency safety intervention may not be used with a student if the student is known to have a **medical condition** that could put the student in mental or physical danger as a result of the use of an emergency safety intervention unless not using an emergency safety intervention would result in significant physical harm to the student or others. The medical condition must be indicated in a written statement from the student's licensed health care provider, and a copy of which shall be provided to the school and placed in the student's file.

When a student is placed in seclusion, a school employee shall be able to **see and hear the student** at all times.

If a seclusion room has a locking door it must be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in cases of emergency, such as fire or severe weather.

A seclusion room must be a **safe place**. The room must have good ventilation and lighting, and be free of any condition that could be a danger to the student. The room must also be similar to other rooms where students frequent.

Seclusion is **not time-out**, which is a behavioral intervention in which a student is temporarily removed from a learning activity without being confined.

Seclusion and
Restraint in

What are Emergency Safety Interventions?

Emergency Safety Interventions (ESI) are seclusion and restraint that are used when the student presents a reasonable and immediate danger of physical harm to self or others.

What is Seclusion?

Seclusion means placement of a student in a location where all the following conditions are met:

1. the student is **placed** in an enclosed area by school personnel;
2. the student is purposefully **isolated** from other adults and peers; and,
3. the student is prevented from leaving, or the student reasonably believes that such student will be prevented from leaving, the enclosed area.

Time-out is not the same as seclusion. Time-out is when a student is temporarily removed from the learning activity, but is not confined.

What is Restraint?

Restraint can take form in different ways. The definition of **physical restraint** is bodily force used to substantially limit a student's movement. The use of prone physical restraint (face-down) and supine physical restraint (face-up) are prohibited. Physical restraint may not obstruct the airway of the student or impact the student's primary mode of communication.

Mechanical restraint is defined as any device or object used to limit a person's movement. The use of mechanical restraint is prohibited in Kansas except those protective or stabilizing devices ordered by a person appropriately licensed to issue the order for the device. Mechanical restraint used by a law enforcement officer in carrying out law enforcement duties is allowed. Seatbelts and/or other safety equipment when used to secure students during transportation are also allowed.

Chemical restraint is prohibited in Kansas. A student may take prescribed treatments for a medical or psychiatric condition when they are prescribed by a person who is properly licensed to prescribe medication.

Consensual, solicited, or unintentional contact and contact to provide comfort, assistance, or instruction is not physical restraint.

A Focus on Prevention

Replacement Behaviors

A replacement behavior is when a student replaces an inappropriate behavior with an appropriate one that continues to serve the same function for the student. When selecting replacement behaviors, the team should address the following questions:

- Does the replacement behavior work as well as the challenging behavior in meeting the student's needs?
- Will it be an acceptable alternative to the challenging behavior?
- Will the replacement behavior be something the student will choose to do and that his or her family and teachers support?
- Will the replacement behavior help build a positive reputation for the student?

Students should be recognized and rewarded for choosing to utilize replacement behaviors to be most effective.

The Kansas State Department of Education

- does not promote the use of emergency safety intervention with any student;
- recommends a focus on prevention;
- stresses that emergency safety intervention is not part of a tiered intervention system or student behavior plan – it is only to be used in an emergency and that
- emergency safety interventions are reactive strategies and do not decrease the likelihood of a behavior from occurring.

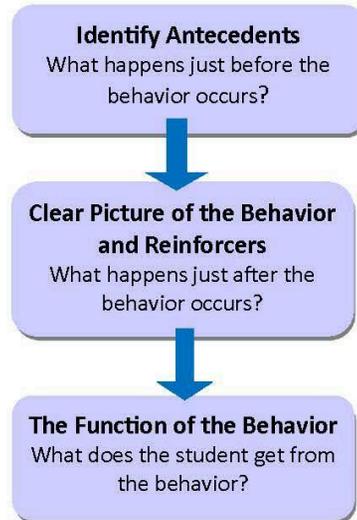

Tip!

An FBA can be conducted at any time for a student who does not respond to school-wide behavioral interventions. Following the assessment, a behavior intervention plan may be developed. As a parent, you have the right to request an FBA.

A Focus on Prevention

Functional Behavioral Assessments

All behaviors are functional and are maintained in environments that support them. If your child's behavior impedes the learning of self or others, you can request a functional behavioral assessment (FBA). An FBA can help teams determine the when, where, how and why problematic behavior occurs. A comprehensive FBA includes interviews, record reviews, observation and data collection, graphing data collected, testing hypotheses, curriculum analysis, implementation of interventions and evaluation of effectiveness of the plan. FBAs should identify antecedents (what happens just before the behavior occurs), a clearly defined picture of the behavior that is occurring, and the reinforcers (what happens just after the behavior occurs). Teams need to determine what the function of the behavior is so that they may provide successful interventions or teach replacement behaviors that meet the same function for the student.

Behavior Intervention Plans

Behavior Intervention Plans (BIP) should focus on proactive strategies to support students, including positive behavior interventions and supports. BIPs should be positive and instructive and based upon a functional behavioral assessment. A BIP should address:

- The function of the behavior
- Effective teaching of the expected behavior
- Rewards and consequences that are meaningful to the student
- Opportunities to self-manage behaviors
- Teach appropriate replacement behaviors

When May Emergency Safety Intervention be Used?

- May only be used when a student presents a reasonable and immediate danger of physical harm to self or others with the present ability to cause physical harm.
- Less restrictive alternatives, such as positive behavior interventions support, must be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESIs.
- The use of ESI must stop as soon as the immediate danger of physical harm ends.
- ESI cannot be used for purposes of discipline, punishment, or for the convenience of a school employee.

Students with a known medical condition.

- An emergency safety intervention may not be used with a student if the student is known to have a medical condition that could put the student in mental or physical danger as a result of the emergency safety intervention.
- The existence of such medical condition must be indicated in a written statement from the student's licensed health care provider, a copy of which shall be provided to the school and placed in the student's file.
- The written statement must include an explanation of the student's diagnosis, a list of any reasons why an emergency safety intervention would put the student in mental or physical danger and any suggested alternatives to the use of emergency safety interventions.
- An emergency safety intervention may still be used if not subjecting the student to an emergency safety intervention would result in significant physical harm to the student or others.

Parents should be proactive and provide the district with written documentation from their child's licensed health care provider outlining any medical condition that could put the student in mental or physical danger as a result of the ESI. You may use this form if you wish, <http://ksdetasn.org/resources/843>.

What are the Requirements for Seclusion?

When a student is placed in seclusion, a school employee must be able to see and hear the student at all times.

All seclusion rooms that have a locking door must be designed to make sure that the lock automatically disengages when the school employee watching the student walks away from the seclusion room, or in cases of emergency, such as fire or severe weather.

A seclusion room must be a safe place with proportional and similar characteristics as other rooms where students frequent. A seclusion room must be free of anything that could be a danger to the student and must be well-ventilated and sufficiently lighted.

What Can I Do if I Feel that ESI has been Used Inappropriately with My Child?

If a parent believes that ESIs have been used that violate the ESI statute, ESI regulations, or the district's ESI policy, then the parent may file a complaint through the local dispute resolution process within 30 days of the use of ESI.

A parent may file a complaint through the Kansas State Board of Education's complaint process within 30 days from the date that a parent receives a final decision through the local dispute resolution process or after 30 days have passed since the parent filed a complaint through the local dispute resolution process, if the parent has not received the local board's final decision. The Administrative Review Request Form can be found at www.ksde.org/Default.aspx?tabid=524.

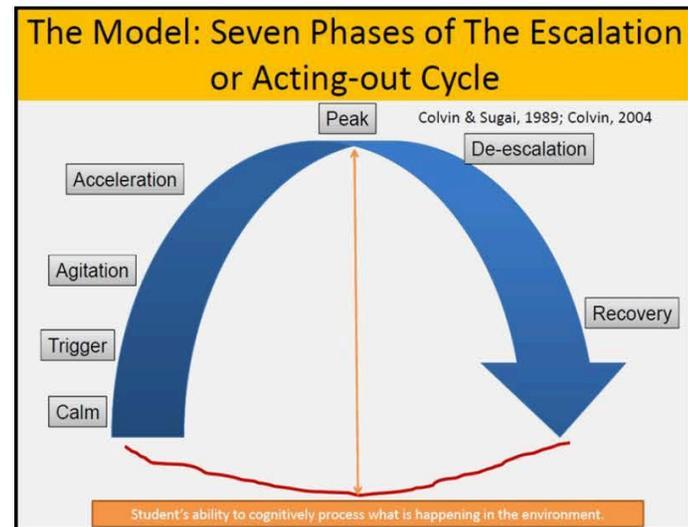

Tip!

If your child has a history of seclusion and restraint or challenging behavior, he or she could be eligible for additional supports and interventions. Parents are welcome to contact Families Together, Inc. to discuss possible options.

A Focus on Prevention

Why focus on Positive Interventions?

Positive Interventions help build positive relationships and encourage new behaviors. Positive interventions also reinforce new skills and increase self-satisfaction and optimism among students, parents and teachers. All students need to be recognized and rewarded when they are meeting the expectations that have been established. Current research suggests positive recognition (rewards, reinforcements, praise) must occur more frequently than negative recognition. A well-developed behavior intervention plan should include many positive interventions in order to effectively change behavior. The first consideration should be the appropriateness of the interventions. The team should select interventions that are based upon the student's developmental level, motor ability, communication mode and other factors relevant to the student and the disability. Environmental and context related factors should also be considered. These might include things such as classroom seating, noise levels, peer issues, instruction that is too hard or too easy, transitions, and changes in the setting.

De-escalation is helpful to begin to identify acting out behavior early and use proactive strategies to decrease the use of seclusion and restraint.

When Must a Parent be Notified an ESI has been Used?

- The school must notify the parent the same day the ESI was used. If the school is unable to contact the parent, the school shall attempt to contact the parent using at least two methods of contact.

- Written documentation of the ESI used must be completed and provided to the parent the same day the ESI was used. Written documentation must include:

- The events leading up to the incident;
 - student behaviors necessitating the ESI
 - steps taken to transition the student back into the educational setting
 - the date and time the incident occurred, the type of ESI used, the duration of the ESI and the school personnel who used or supervised the ESI
 - space or an additional form for parents to provide feedback or comments to the school regarding the incident
 - a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future use of ESIs
 - School email and phone contact for the parent to schedule the ESI meeting.
- The parent must be provided with the following information in writing or, upon the parent's written request, by email, after the first ESI incident in a school year and provided with this information after subsequent ESI incidents through a web address:
 - A copy of the standards of when ESI can be used;
 - A flyer on the parent's rights under ESI law;
 - Information on the parent's right to file a complaint through the local dispute resolution process and the complaint process of the Kansas State Board of Education; and
 - Information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas.

Are There Requirements for Meetings Following an Emergency Safety Intervention?

The written documentation of an emergency safety intervention incident must contain:

- a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future use of emergency safety interventions; and
- email and phone information for the parent to contact the school to schedule the emergency safety intervention meeting.

After an emergency safety intervention incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. The focus of any meeting convened shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

If a parent requests a meeting the meeting must be called within 10 school days. The time for calling this meeting shall be extended beyond the 10 school day limit if the parent is unable to attend within that time period.

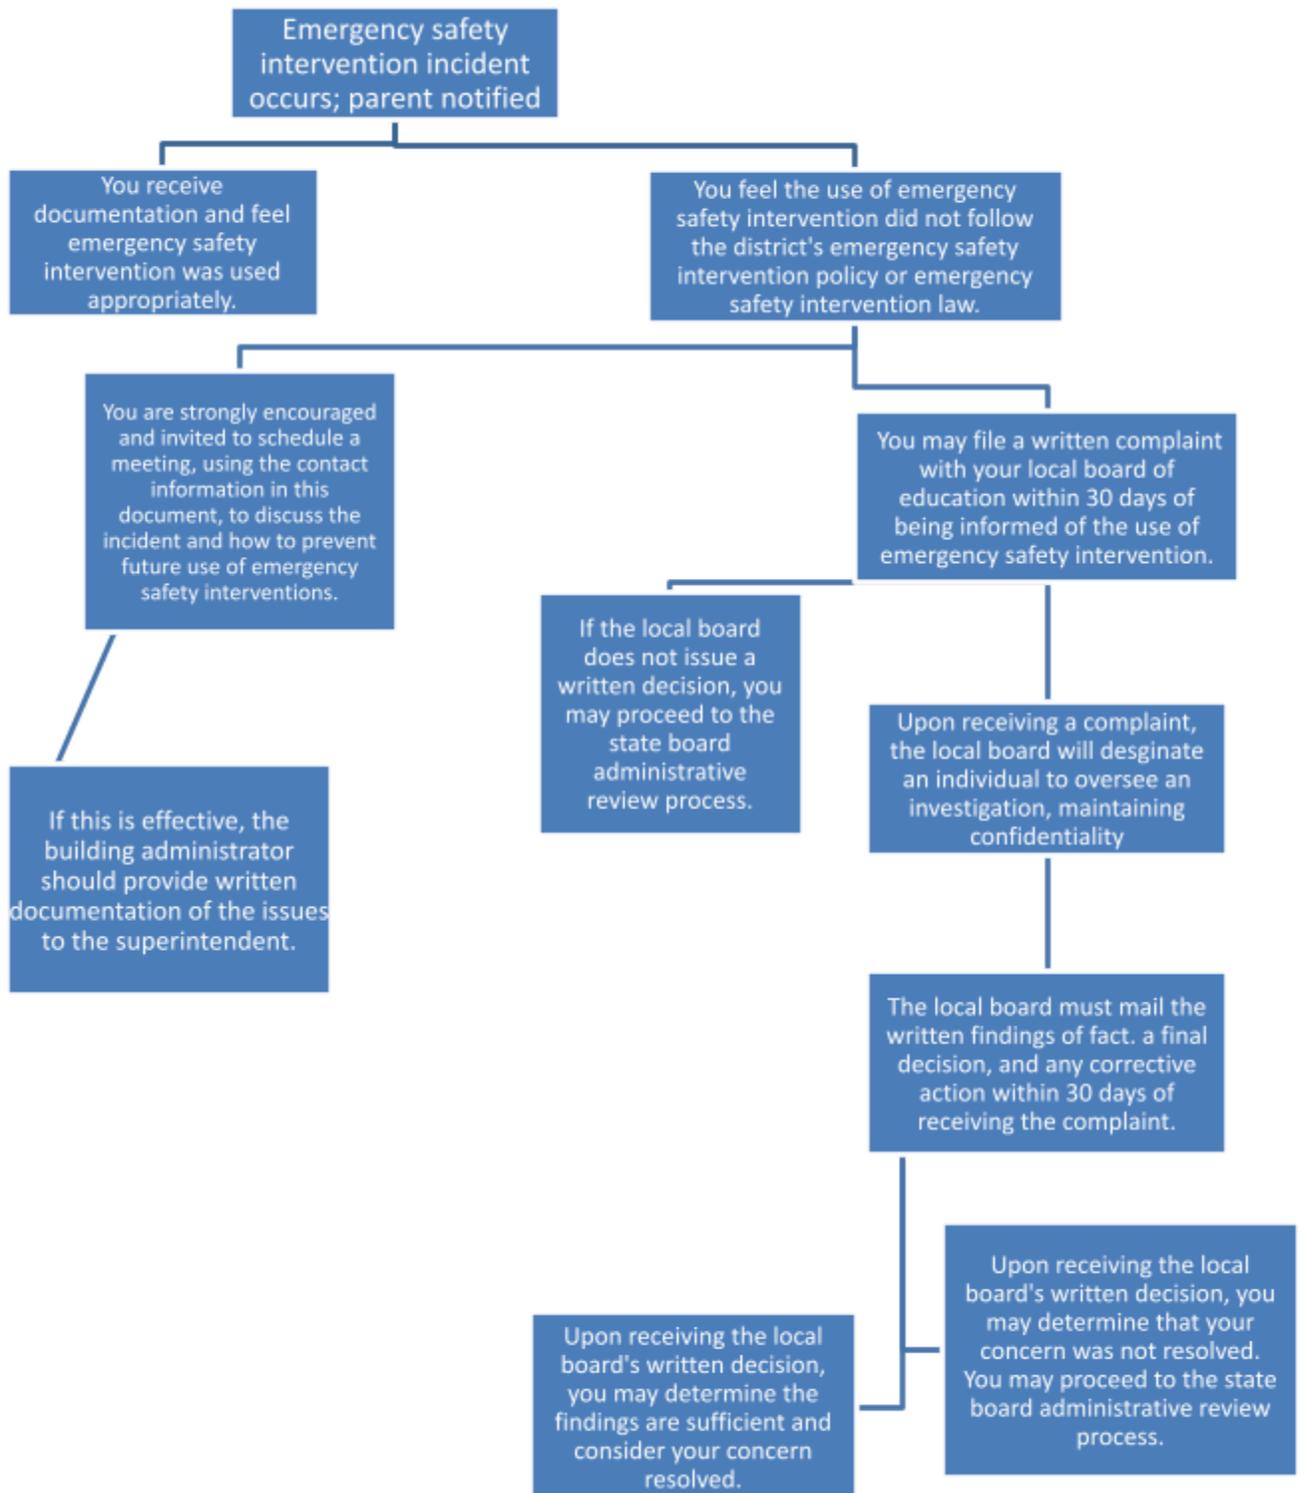

What are the Emergency Safety Intervention Meeting Requirements for Students Parentally Placed in Private Schools?

For students who have an individualized education program (IEP) and are placed in a private school by a parent, a meeting called by the parent must include the parent and the private school, who shall consider whether the parent should request an IEP team meeting. If the parent requests an IEP team meeting, the private school must help facilitate such meeting.

Are Students Required to Attend the Meeting?

The parent shall determine whether the student shall be invited to any meeting.

Local Dispute Resolution Guide for Parents

State Board Administrative Review Process

Refer to K.A.R. 91-42-5 for complete information. The following provides a summary of the regulations regarding an administrative review initiated with the Kansas State Board of Education (State Board).

- If a parent believes an emergency safety intervention was used in violation of K.S.A. 2016 Supp. 72-89d01 through -89d09 or K.A.R. 91-42-1 through -7 and the parent filed a written complaint with their local board of education, then this parent may request an administrative review of the local board's decision from the State Board.
 - The request for administrative review must include the following information:
 - Name of the student and contact information;
 - Names and contact information for all involved parties (teachers, aides, administrators, and district staff), to the extent known;
 - A detailed statement of the reason for requesting an administrative review;
 - Any supporting facts and documentation; and
 - A copy of the complaint filed with the local board, the local board's final decision (if issued).
 - The written request for administrative review must be typed or legibly written and signed by the parent.
 - Relevant documents must be attached or, if unavailable, the documents must be referenced in the request for administrative review.
 - Written consent to disclose any personally identifiable information from the student's education records necessary to conduct an investigation
- The request for administrative review must be filed with the Commissioner of Education within 30 days of the local board issuing its final decision OR within 60 days from the date the parent filed a complaint with the local board, if the local board did not issue a final decision. You may mail this request to the Kansas State Department of Education, Landon State Office Building, 900 SW Jackson Street, Office of General Counsel, Room 102, Topeka, Kansas 66612. KSDE has provided a form for you to use, if you wish, and you can find it on the Emergency Safety Interventions page of the KSDE website, www.ksde.org/Default.aspx?tabid=524.
- A Hearing Officer will be designated by the State Board. The Hearing Officer must send a copy of the request for administrative review to the local board.

- The Hearing Officer will consider the local board's final decision and may initiate an investigation that could include:
 - A discussion with the parent, during which additional information may be gathered;
 - Contact with the local board or other district staff to allow the local board to respond to the request with information supporting its final decision; and
 - An on-site investigation by Kansas State Department of Education staff.

- If new information is discovered that was not made available to both the parent and the local board during the dispute resolution process, the Hearing Officer may send the issue back to the local board.
 - If sent back to the local board, the Hearing Officer's case will be closed and the local board has 30 days to issue a written amended final decision.
 - If the parent feels the local board's amended final decision does not adequately address the issue, the parent may file a new request for administrative review with the commissioner by following the above process for requesting administrative review. This must be done within 30 days of the local board issuing its amended final decision. If the local board does not issue an amended final decision within 30 days, then the parent has 30 days from the date the Hearing Officer sent the issue back to the local board to file a request for administrative review with the commissioner.

- Within 60 days of receiving the request for administrative review, the Hearing Officer will, in writing, inform the parents, school administrator, district superintendent, local board clerk, and the state board of the results of the review. This time frame may be extended for good cause upon approval of the commissioner.

- The results of the administrative review will contain findings of fact, conclusions of law, and any suggested corrective actions. The Hearing Officer's determination will include one of the following:
 - The local board appropriately resolved the complaint.
 - The local board should re-evaluate the complaint with suggested findings of fact.
 - The Hearing Officer's suggested corrective active is necessary to ensure that local board policies meet legal requirements.

State Administrative Review Guide for Parents

You filed a complaint with the local board and you are not satisfied with the final decision about the use of an emergency safety intervention (ESI).

File a request for administrative review with the Kansas State Board of Education. You must do this within 30 days of the local board's final decision or, if the local board failed to issue a final decision, within 60 days of the date you filed a complaint with the local board.
